Mr. Kaufman,

I am writing to express our gratitude to your company for our overall success from the use of your Cigarette Buster flame detection device. We implemented the use of your product three weeks ago in all of our high school bathrooms. We are using them in a covert capacity and have had over 30 interventions for students who are smoking in our high school bathrooms. In each instance we have been able to apprehend the student while they were smoking on school grounds and have then provided them an opportunity to take part in a cessation program that will have long term positive results on the students overall health. The results have had a larger impact on our overall student body that is experiencing a smoke free bathroom environment. I want to thank you for the development of this system, it has produced remarkable results.

Thank you,

A handwritten signature in black ink, appearing to read 'R. Keuther Jr.', written over a large, stylized flourish.
