December 18, 2017

Dear Mr. Kaufman,

This letter is to let you know how well your product has helped us in eliminating smoking in our restrooms at our facility. We have always had problems with smokers until we installed the cigarette smoke detectors in the restrooms, within weeks the problems went away. I would recommend your product to anyone with this problem. Combined with surveillance cameras outside the restrooms, we can track the culprits after the alarm is triggered.

Thanks again,

Bob Lowe
